

## **Electoral program of Archangel Michael**

**And here is the cornerstone of the system of the State and the Homeland of Free People.**

### **RULES FOR FREE PEOPLE**

*Written in the morning on Christmas December 25, 2017 within 1.5 hours.*

The Constitution of Free People is the 10 Commandments for the time of the existence of the New Earth given at the end of the rules.

The Sejm, Senate, ministries, offices and existing legislation are being eliminated - the only form of government for Free People is Data Base Service, in which acquired knowledge is collected and straight-documented results of field research in a given industry. necessary information and simple and understandable standards are collected for the benefit of the given industry, entire communities and the entire Homeland. Database Service selects the given community in an email or text message. Each of the Database Services can be revoked at any time by a vote of no confidence by the members of the given industry or community. Detailed rules of creating standards, functioning and service of Data Bases will be established by the Free People in the form of industry statutes.

The Office of the President is left to represent the Nation outside and to consider the complaints of the Nation and show grace. The rules of appointing, dismissing, acting and serving the Office of the President will determine the Nation of Free People in the statute.

Competition is abolished, banks - including money, corporations, stock exchanges and commodity exchanges - introduce the principles of cooperation of Free People on the basis of contribution, and the granaries and warehouses of crops are built, goods and services are also built in the form of databases of Principles of contribution will be elaborated and made aware of Free People by spreading these noble ideas and wanting to spread them. Contributionism gives everyone the right to access goods on the basis of equality. This eliminates social inequalities and poverty, and implants widespread prosperity.

Cooperation is introduced in place of competition. Firms and small, small and medium-sized enterprises will have the character of family businesses, with the Family being and owners of companies and farms and all employees regardless of nationality. The statute will define the protection of the owner and employee in a given company or holding and the scope of activities. Companies and large and very large farms will have the supervision of the whole community or the entire Nation. Details of the divisions and supervision of people over such companies and farms will be determined by the Free People collectively in the statutes of companies and farms. Companies and households will cooperate on the basis of the Cooperative, sharing their work, knowledge and experience wisely and fairly. Each investment is carried out on the basis of a preliminary design or submission of works placed in Databases and keeping a Construction Diary in which specialists make necessary entries about performed works and information about construction changes and changes in the method of foundation and attach necessary results of measurements and tests. After completing the investment, the Construction Log and Attachments are entered into the Databases. The Free Design People after the social debate, taking into account the opinions of specialists from given industries, will decide about the initial design form or the form of notification of works for given investments.

**1 correction.** Financial settlements are introduced in the international exchange of goods and services until we implement the principles of Contributionism in Nations cooperating with us.

The Nation's industry system is created - industries and new industries are registered by the Office of the President, establishing the necessary order in this respect. In every industry, the Council of Wise Men appointed and dismissed by its members establishes simple standards and principles of the industry. The Council works only periodically to make changes and improvements and to improve the quality of work and its simplification.

Forms of production - in the Free State of Man, only high and very high quality goods are produced, giving up the production of sells and giving up the production of bad and poisoned food, including the abandonment of GMOs.

This is done for the health of Free People and to shorten the work of Free People.

Forms of ownership - about what belongs to a given Free Man, and as to the whole given Community or to the entire Nation will be decided by Free People within a given community and within the whole Nation in the form of amendments to statutes or constitutions determined in the vote after the debate held under Communities or within the Nation. Each foreigner who is an employee or guardian or spouse is a part of the Nation. Communities are: villages, cities, municipalities, provinces and the state - as well as universities and schools as well as institutes, religious groups, associations, as well as companies and farms.

Caregivers People requiring care - such carers are treated as employees, as if they were doing a job.

The activities of courts, prosecutors and police are complemented by the supervision of Free People over their activities. In case of bad actions, the Free People will issue a vote of no confidence in the body or its member to appeal them. Training of judges, prosecutors and police on principles such as in every field of education, maintaining the principles of sharing knowledge and experience between the master and student as described below.

Is annulled evidence and passports and other forms of registration of people - the only distinguishing sign of the Free Man is name / surname and full signature and a shortened signature - the self-carers or parents or godparents sign for the ward / protégé. An electronic and telecommunications form of signature is also introduced; via e-mail or via SMS.

The current registration obligation ceases are annulled - the only form of the Free Man's report is his entry or entry of guardians into the book of the residents of the house or facility.

The pre-school and school obligation is abolished - Carers, and later Child Free is already conscious chooses the form of his own education and chooses the teacher = master. Proposals for forms of education and self-education: kindergarten and primary school and current schools, individual teacher /, training in loose discussion groups and other organized groups, eg on the

example of cooperatives or associations, education by parents / guardians and self-study using the available literature and media as well as databases. In cases of acquiring professional skills, the master-student principle applies. The student chooses his master / masters and is supposed to practice with them until he gets the right skills confirmed by the master. The final confirmation of the acquired knowledge or skills is an exam in front of the Examination Committee consisting of masters and students of a given industry, appointed and recalled according to established rules of the industry statute.

The coercion of treatment or the coercion of vaccinations is abolished - Free people decide whether and how they want to heal themselves until they are aware of their deeds. The Free Child also has the same rights when his self-awareness is already shaped, the individual case is confirmed by the guardian or in disputable matters by the closest community who knows the Free Child and who cares about his development with love and wisdom.

Freedom of Religion - introduces the principles of freedom of religion and mutual cooperation of beliefs for the good of the Homeland of Free People and for the good of all Beings, including Animals and Plants. Faith misusing this principle will be eliminated by Free People through a vote of no confidence. Soldiers and the Army - Soldier can only be a person recognized as capable of serving the Homeland by the appropriate Commission after consulting the doctors / healers, priests and the community in which the Person was brought up or educated. The rules for the creation and operation of the army will be agreed collectively by the Free People in the statute of the army with the participation and taking into account the proposals of the Soldiers.

And now the Constitution:

### **ARCHANGEL MICHAEL**

You came down to the Earth with the Blue Ray -  
You Righteous ARCHANGEL - KING.  
In front of You wields the Sword of Eternal Truth -  
And you cut off chaos and pain.

Righteousness, You shine, Love is spreading -  
You do not give up when difficult time.  
You bravely protect the Rights of our SOUL -  
You are hugging us to Your Heart.

You restore the law wherever You are -  
Where do you put your feet there, shine?  
And your wisdom makes us wisdom -  
Because in the hearts of God, you keep the Holy Laws.

You Uninterested, You Righteous -  
You Beloved Michael Our -  
Wrap with Your Power Human Space -  
In order to be safe in the ages.

Your face as a pure diamond -  
And the Law of Your Harmony is vibrating.  
In front of you, I bow to eternal -  
That you are looking for the Righteous among us.

Today with Love, MY ARCHANGEL -  
I lay my heart at Your feet -  
And honestly, keep people faithful -  
YOU LIGHT GATES OPEN TO US again.

Ewa A. Bednarczyk

Warsaw, 6 September 2006.

2 amendment. Bargains, Occultists and Mages are accepted by the Free People Society only until they do no harm to Free People and other Beings who do not act to the detriment of Free People.

This law - or rather the commandments - is not a compulsion - it is a recipe for a better and happier life - a difficult and demanding recipe - but a recipe. When you adapt to these guidelines, you will quickly make the world smarter and happier - and above all give it a chance to survive.

### **Your incarnate Heavenly Father = Legislator**

The above can be treated as an **election program of Archangel Michael** - on this earthly field of Jacek - Mieczysław Jacek Skiba

From the book's design: **Earth and Humanity enslaved by law and technology - what are the forces of darkness and selling elites about ?**

From the chapter: **What system for free people ?**

As I've said for slaves, it's easy to choose a system. Everyone is fit and they are able to impose more and more burdens on everyone - and they, reconciled to their fate, will bravely endure it. They will not even notice when they have become total slaves - as described earlier.

It is much harder to find a good social system for the Free People - who in all respects this Freedom in themselves feel - and such and only such will soon tread on this Earth. Such as I AM.

The only system that I see today as being suitable for the FREE PEOPLE is the contribution of contributism proposed by Michael Tellingier from South Africa from the UBUNTU movement. Contributionism assumes that there is no competition anymore - instead there is cooperation and cooperation only. It presupposes giving up not only usury but even money altogether. Therefore, it assumes that there is no more payment for the goods and that there is no trade - there is even no barter or exchange of goods. On the other hand, there is a joint development of goods and a shared fair sharing of these goods - that is contributionism. Everyone in such a beautiful system puts their talent and multiplies it - for the benefit of all members of the community. Each community gives in such a beautiful system other communities what they need, and what we have in excess - and vice versa. There is no competition in such a beautiful system, there is no exploitation of the weak and there are no poor - there is no evil - and there is no poverty = deprivation. Because it is simply universal prosperity = abundance. If such a system with the help of Michael Tellingier and Members of the UBUNTU Movement is introduced in Poland, I guarantee that within one decade there will no longer be anyone in our homeland who has suffered any shortage.

It is logical that in such a beautiful system, one always strives to simplify life in every field. So unnecessary robots and unnecessary work are being removed. And all unnecessary paper are for sure rejected; a stack of documentation, decisions and permits. Do you already know what I'm saying to you?

In a few simple sentences I strike your consciousness - that you understand - because I assure you that everything is only a matter of the Awareness - open and developed like in Michael and He's similar - or closed, as it is in most of you today. So open yourself - open - and we will know the well-being, peace and tranquility that have never been here before.

The above from the design of my fifth book: **Earth and Humanity enslaved by law and technology - what are the forces of darkness and selling elites ?**
